

INALCO PARTICIPATES IN ESPACIO COCINA - SICI 2017

Alcora, January 27th, 2017. **Inalco confirms its participation** in the 2nd edition of the **Espacio Cocina – SICI 2017 Trade Fair** that will be held in the spanish city of **Valencia** from **February 20th to 24nd, 2017**. The **iTOPKer porcelain slabs** for countertops will be presented at the **stand located at Hall 6, Level 2, Stand D113**.

The **iTOPKer porcelain slabs** for countertops with a 12mm-thickness and 1500x3200mm large-format **is an innovative material with a high performance**, a result of a process in which the best technology in ceramic production, creativity and design are combined. At Inalco Stand in Espacio Cocina - SICI, iTOPKer's **more than 40 available finishes** will be available, inspired by the elements found in nature.

Inalco will present in its stand an integral concept of decoration with several kitchen furnitures by Dica, a leading Spanish furniture manufacturer, decorated with several iTOPKer surfaces.

The Espacio Cocina – SICI 2017 Trade Fair has become with its second edition one of the main showcases in Spain for the kitchen world. From the 20th to the 24th of February 2017, we look forward to your visit at Feria Valencia.

INALCO: COMPANY INFORMATION

INALCO, leading company specialized in the design and manufacture of large-format porcelain tile collections, boasts more than 40 years' experience in the tile industry, supplying tile products and services to architects, interior designers and the building sector. It currently has a sales network that encompasses over 130 countries.

Our innovation, the most advanced technologies, the best team of skilled professionals, the design and an absolute control of all processes, allow us to create unique and extraordinary products, according to the latest trends in decoration.

As a result of this innovation, Inalco currently develops two distinctive product lines: Slimmker collections of porcelain tiles with fine thickness and large formats 150x300cm, 150x150cm or 100x250cm for floor and tile laying; and iTOPker collections of 12mm-thick porcelain slabs in a large 150x320 cm format conceived for use as countertops.
